Naval Aviator +
Stunt Pilot in Movie "Top Gun"

Russ Gentry

"I'm a career Naval Aviator and a stunt pilot for fun. I know machine performance and the limits I can take a machine and that's why I choose Floatair. I trust my life with the jets I fly and I trust my boat on a Floatair."

THE BEST BOATLIFT, PERIOD!!!

OUTSTANDING FEATURES

40 engineered models 800#s to 24,000#s- proudly manufactured in **Greenville, SC, U.S.A.**

4 Corner Mounts, Front Mounts and Side Mounts

Highest Resale in Industry

All steel parts Hot Dip Galvanized in 4 mil zinc coating

Marine Grade Strength Galvanized Steel Frame

Implementation of the newest technologies: 4G Tank Design

Dual set up for Pontoon and Boat

Cradles, made from recycled polymer, will last a lifetime

Cradles adjust in 1" increments to fit your boat

Polymer tanks are engineered with a ring of air around the top, which results in less weight on your dock when the lift is down

Tanks are securely mounted with precision-fit security eliminating the majority of steel in the water

4G Front Mount

4G Four Corner

Boat, Pontoon, or Dual Set-ups

FRONT MOUNT FEATURES

Polyethylene bearings for quiet, smooth operation

Side Guides strengthen your dock adding to its buoyancy

Models from 800 lbs - 10,000 lbs

Frames are 5"x2" 11 gauge rectangular steel tubing for extra strength

Great for shallow water as low as 36"

4 CORNER MOUNT FEATURES

Polyethylene bearings for quiet, smooth operation

Dual pittman arms for extra strength and smoother operation

Three inch slide tubes for extra strength

Reinforced arms for extra strength

Lift arms use 1" pivot bolts, largest in industry

Models range 1,800 lbs - 24,000 lbs

SIDE MOUNT FEATURES

Custom built under water bracing provides extra reinforcement

Dock Brackets reinforced to prevent flexing

Models range 800 lbs - 6,000 lbs

Great for party decks or regular dock walkways!
